

**BILLERICAY : WALK 1**

**Distance :** A circular walk of approximately 4 miles

**Time :** Approximately 2 – 4 hours

A circular walk round Billericay of about four miles taking in three of the green areas of the town, Lake Meadows, Norsy Woods and Mill Meadows, each with its own beauty and environment. At a good pace, this walk should take about two hours, at a leisurely stroll, it could take four hours. As a circular walk, you can pick up the trail anywhere along the way, walking its entire length if time permits, or perhaps just a part of it.

From the High Street, starting at Stock Road and Radford Way cross Radford Way at the pedestrian crossing and turn LEFT. Walk down Radford Way to the public footpath No. 5 signposted to Lake Meadows and Perry Street. Turn RIGHT and walk along the path to Cromwell Avenue, cross straight over and carry on walking along the path, round the bend and then straight on into Lake Meadows car park. At the main entrance to the park, turn sharp RIGHT and walk into the park. At this point you can turn left or right to go round the lake where you will see many kinds of water birds. At the far end of the lake the paths meet up and you continue your walk away from the lake towards Hillhouse Drive and out of the park. At Hillhouse Drive turn RIGHT and walk to Stock Road, cross over and turn LEFT, walk along to Headley Road, turn RIGHT and walk up Headley Road to Norsy Road, cross over and turn LEFT. Walk along Norsy Road to the entrance to Norsy Woods on the right – this is almost opposite Lilford Road.

Walk along the path to the main path. Turn LEFT and walk along to the third path on the right, turn down this path and walk on to the edge of the woods. Go through the gate and into Break Egg Hill and turn LEFT. Walk to the end of the road and onto Outwood Common road. Turn RIGHT and walk along the path down the hill and along to Greenway on the right. Now walk up Greenway to Mons Avenue, continue and go into Thynne Road, walk up the road to Greens Farm lane, cross over and turn LEFT. Walk up the hill to the 40 mph sign; on the right is the second kissing gate, go through into Mill Meadows. Follow the path through the wooded area, along the edge of Field No.1 to Field No.2. Cross the shallow ditch and walk straight across the narrow field up the hill to the gap in the hedge and into Field No.3. Follow the path straight across the field to the next hedge and cross over the small footbridge into Field No.4. Walk straight across this field along the path to the next hedge and another larger footbridge at the gap in the hedge and into Field no.5. Then walk straight across the field along the path and go through the gap in the hedge into Field no.6. Now turn sharp RIGHT and walk down the hill following the path down to the footbridge and cross over into Field No.7. On each side of the bridge are oak trees, walk straight ahead up the hill and as you walk along you will see some broom on the left with its nice green rods. Carry on to the top of the hill, on the right is an oak and on the left there is some more broom. Just here the path forks, take the LEFT path along the top of the hill; passing between two young oaks, cross the next path keeping to the top of the hill; this is a well used path and you will now be passing through a bracken area. As you come out of the wooded area you will find yourself looking across an open area where on the horizon you will see a mobile phone tower. Follow the path on to meet another path, carry on up the hill to the gap. Here the path forks again, take the one to the RIGHT and walk on to the kissing gate at the roundabout at Sun Corner/Chapel Street. Turn RIGHT and walk along to the other end of Chapel Street into the High Street, carry on RIGHT down the High Street, crossing near the traffic lights at the junction of Norsy Road, Stock Road and Western Road with the High Street. Cross over and turn RIGHT, crossing Western Road at the lights and down Stock Road over the railway bridge and you will find yourself back at Radford Way.

Almost opposite the church turn LEFT at the start of F.P. No. 30. This path is well used, at the end of the first part, hedge on each side, go into field, keep to the hedge on the left, cross this field and the next and in the corner is a stile. Go over and onto 'Outwood Farm Road', turn RIGHT, walk along to F.P. No. 164, this is on the left. Be sure to follow the path as described below. Do not enter the lane just beyond the path. You will get to the lane by following the path.

Go over stile to end of 'alley', and turn RIGHT. STOP! On the RIGHT is a wooden fence, this curves to the RIGHT. The path goes straight across field, leaving the fence about one third along its length. A finger post can be seen in the fence across field. Walk to it, go over stile and turn LEFT. Walk on along lane past the barns and other buildings, until the sewage works gate. Just past the gate is the next part of F.P. No. 164. On the right is a way marker post. The path keeps close to the edge of the wood, just keep on to end of woods to Bridle Way No. 33, this is a T-junction. To the right is Crays Hill and to the left is Ramsden Heath. Turn LEFT and walk up the hill, as you go over the railway bridge the Bridle Way changes numbers. It is now Bridle Way No. 8 to 'Heath Road'. This is some half a mile. It takes about one and a half hours to get to 'Heath Road' from the start. A much needed drink may be got if one turns RIGHT at Heath Road. Walk down and round the double bend and on for about another four hundred yards and on the left is the Nags Head Pub, or turn LEFT and continue the walk.

There is no path along here, so walk along the grass verge as it is fairly wide. Be careful of the dips. Walk on to the bend where the entrance to Ramsden Hall School is, this is on the LEFT. Walk down to the gate and to the right is a finger post and the start of F.P. No. 11 to Outwood Common Road. Walk along with the fence on your left, on the right is a barn and a heap of manure.
